

# Bizz Buzz Club

The BIZZ BUZZ club was formed with the objective of increasing the awareness of students about real world business situations. With the fast changing economic scenario, commerce, as a subject, helps to acquaint students to understand the diverse changes.

As a part of the activities of the club, we organize AD ACT competitions, in which each team is required to prepare an advertisement on a given topic. This enhances the creativity of the participants. It demonstrates that how students market their product. Competitions are held for slogan writing and logo making in which students design an original logo and formulate a catchy slogan to promote the sales of their product.

Students with creative minds are trained by private individuals for interschool competitions. The club's main objective is to enhance the analytical abilities of students by encouraging them to participate in various interschool competitions like Mock Stock etc. All the activities of BIZZ BUZZ develop an understanding about the significance of commerce. Being a prominent club, it has been training numerous students over the past several years and continues to do so.
